The ISA/IEC 62443 Series of Standards – Cybersecurity for Industrial Automation & Control (3 days)

Deze driedaagse training biedt een diepgaande introductie tot de beveiliging van industriële automatiserings- en controlesystemen (IACS) met behulp van de ISA/IEC 62443-standaard.

FOR WHOM?

This course focuses on Process & Automation professionals, Safety Experts, Building Management, and Information Security Professionals with an interest in OT Security

COURSE CONTENT

Day 1:

- Introduction to Industrial Cybersecurity
- European Legal and Regulatory Frameworks (NIS2, CRA...)
- ISA/IEC 62443 Basic Concepts (Roles, Zones, Security and Maturity Levels)

Day 2:

- Building an IACS Security Program
- Security Policies and Procedures
- Risk Assessment and Security Levels
- Core Technical Topics (Asset Management, Segmentation, Access, Incident Management)

Day 3:

- Maturity Models and Continuous Improvement
- Product Security and Secure Development Lifecycle

OBJECTIVES

This 3-day training provides an in-depth introduction to securing Industrial Automation & Control Systems (IACS) using the ISA/IEC 62443 standard. Designed for professionals in operations, safety, and information security, it covers the unique cybersecurity challenges of industrial environments. Participants will explore European regulations (NIS2, CRA), core ISA/IEC 62443 concepts, and practical tools to build and manage a robust IACS security program.

PRACTICAL INFORMATION

TRAINING LOCATIONS

Locations	Start date	Course duration	Language	Price
Antwerpen	04/11/2026	3 days	Dutch	2620 EUR
