Additional training radiation protection officers (RPO) – Non-destructive testing

a **kiwa** company

In deze e-learning bieden we industriële radiologen een aanvullende opleiding om de rol van Agent voor de stralingsbescherming (RPO) of Hoofd van de Dienst voor Fysische Controle te kunnen vervullen.

FOR WHOM?

This course is therefore aimed solely at prospective Class II Radiation Protection Officers in the NDT sector who have already completed a comprehensive basic training course in radiation protection.

- Radiologists who have completed 16 hours of radiation protection training in accordance with the old licensing requirements
- Radiologists who have completed an RPO training course abroad

COURSE CONTENT

This course covers the following topics:

- Revision of radiation and legislation
- Royal Decree on industrial radiography
- Sources, risks and radiation protection
- NDT procedures
- Roles
- Dose monitoring
- Transport
- Rules on site
- Incidents
- Historical incidents
- Examples from Belgium
- Procedure
- Knowledge test

OBJECTIVES

On 17 February 2023, the Royal Decree on industrial radiography was published, which has implications for companies carrying out non-destructive testing (NDT) using ionising radiation.

The new Royal Decree affects the organisation of these activities, but also imposes specific training requirements on industrial radiographers. In addition to an initial 4-hour training course, they must also complete the 'Radiation Protection Officer' training course in order to be authorised to carry out their duties.

The target group must undertake additional training to fulfil the role of Radiation Protection Officer or Head of the Physical Control Service. We offer this through this e-learning course.

PRACTICAL INFORMATION

- Here you will have access to an e-learning course featuring professional recordings. Please ensure you allow sufficient time for taking notes and completing the knowledge test.

- You will receive a welcome email a few days after registering; please do check your spam folder during this period.
- From the moment you receive this email, you will have 3 months to complete the module; after that, your access will be closed.
- All the presentations shown can be downloaded from the online platform.
- The e-learning course concludes with an online test. Once they have passed the online knowledge test, each participant can download their certificate of attendance immediately.
- If you wish to register more than 8 people at the same time, you can request a bespoke quote at the bottom of the page.
