ISO 42001- Introduction Training - Artificial Intelligence (E-Learning)

POUR QUI ?

- This course is aimed at anyone who wishes to understand and introduce an artificial intelligence management system into their organisation.

CONTENU DE LA FORMATION

- How to describe the fundamental principles and concepts of artificial intelligence management
- Understand the structure, content and purpose of ISO 42001 - including Annex SL common structure, manage artificial intelligence products and services, and improve organizational performance
- How to explain the process model approach and its essential role within ISO 42001 - headline clause requirements and the role of the PDCA
- How to summarise the underpinning principles and concepts of quality management - definitions of quality and quality assurance, 7 management principles and fundamentals of process approach and risk-based thinking.

OBJECTIFS

The e-Learning course is aligned to the structure of ISO 42001 and is presented in four parts. **These are:**

- **Part 1: Fundamentals** - This explains the definitions and concepts required to understand the thrust of ISO 42001:2023 and artificial intelligence management
- **Part 2: Strategy** - This introduces the front end of the standard which sets out the basis for implementing the artificial intelligence management system
- **Part 3: Implementation** - This presents the core of ISO 42001 which is where the bulk of its process, product and service-based requirements are contained
- **Part 4: Evaluation & Improvement** - This describes the methods and expectations relating to continual improvement of the management system

INFORMATIONS PRATIQUES

We recommend taking up to half a day to complete the NQA E-Learning courses, but users may take more or less time depending upon their own needs and learning styles.
