Compliance Essentials : Cybersecurity under the RED (Radio Equipment Directive) - (E-learning) - Training in English

The e-learning course Compliance Essentials: Cybersecurity under the RED offers a comprehensive introduction to the Radio Equipment Directive (RED) and its significant impact on product development. Key topics such as the New Legislative Framework and the crucial role of cybersecurity are extensively covered, along with other essential aspects of the directive. This knowledge is indispensable for ensuring the safety and compliance of product in the EU market.

VOOR WIE

This e-learning is intended for anyone involved in the design, development, manufacturing or marketing of radio and/ or wireless communication products that must comply with RED requirements and general EU legislation regarding product compliance. This includes compliance and product managers, distributors/ sellers of radio products, design, compliance and test engineers and manufactures.

This concerns a training at MBO level. No specific prior knowledge is required to follow the e-learning.

INHOUD VAN DE OPLEIDING

This e-learning consists of several chapters, each covering specific topics. It begins with an introduction to product compliance, including the New Legislative Framework and CE marking, followed by an in-depth view on the Radio Equipment Directive (RED). The course also addresses cybersecurity in the context of the RED Delegated Act (articles 3.3 d/e/f) and the Cyber Resilience Act (CRA).

After each chapter, there are (assessment) questions. Upon completing the entire e-learning, participants receive a certificate.

OBJECTIEVEN

The goal of this e-learning is to provide participants with insights into product compliance, the Radio Equipment Directive (RED) and the role of cybersecurity within this directive.

They will learn about the New Legislative Framework, CE marking and specific regulations such as the RED Delegated Act and the Cyber Resilience Act (CRA), to ensure the safety and compliance of their products in the EU market.
